COMMITTEE ON MINISTRY
Rev. Dr. Geneva Brown Daniel was called to be our new Conference Minister. Rev. Dr. Allen Fluent did an excellent job as our Interim Conference Minister. We thank him for his service. Rev. Dale Parson will begin his sabbatical July 1st and in his place will be Rev. Tyler Connoley. Rev. Connoley will provide a strong ministry presence in the Western Association.

CONGREGATIONAL VITALITY
The Center for Progressive Renewal is a new program offered by the UCC to help struggling congregations discern, discover, and decide on a new mission through the New Beginning Assessment. Three of our Churches have entered this program. The Conference is helping fund these Churches in this endeavor.

MOVAL
This has been an exciting year for MoVal. In October, 250 youth attended a MoValloween event. In April, the first Mofestival took place on the Tambo grounds. St. John's Bem funded and worked on remodeling the Health Center. A special Thank You goes out to them.

At a retreat in January, a vision planning session took place. Priorities were set for fund raising to help fund Camp improvements. We will be looking at grant writing, using wills and estates, as well as different foundations to help in this. We will also look at promoting an increase in annual giving.

There is a need for larger meeting space so we can attract larger groups in a covered area. We are also looking into specialized camp programs. One idea is an equestrian program. Another idea is more young adult programming.

SHANNONDALE
This year's wood harvest was greatly above average. This will help in the budget. The Carbon Credits Program has received income and this will help in development.

Respectfully submitted,
Bill Seymour
